PENSACOLA, FLORIDA 32508-5217

5090

Ser 19000/0016

JUN 24 2004

From: Commander, Navy Region Gulf Coast

Subj: CONSOLIDATED HAZARDOUS MATERIAL REUTILIZATION AND INVENTORY  
MANAGEMENT PROGRAM (CHRIMP)

Ref (a) CNO ltr 5090 Ser N4/4U745710 of 4 Feb 04  
(b) OPNAVINST 5100.23F  
(c) CNO WASHINGTON DC 011810Z May 95 (NOTAL)

1. Reference (a) directs the Regional Commander to establish a Regional CHRIMP consistent with guidance found in references (b) and (c). The objective of CHRIMP is to gain total visibility of all Hazardous Material (HM) and Hazardous Waste (HW) streams generated within Navy Region Gulf Coast (NRGC). The Chief of Naval Operations states: "Where implemented, CHRIMP has consistently reduced both the procurement of HM and the generation of HW with a concomitant savings in total ownership costs." The CHRIMP encompasses all activities and tenant commands within the NRGC area of responsibility, regardless of major claimant affiliation.
2. A CHRIMP Team has been established with regional representatives from Supply, Environmental, and Safety Offices to develop guidance and implement the program. A CHRIMP representative will contact you to begin program development within your activity.
3. As we progress through the transition to CHRIMP, our focus will be to ensure your HM requirements are fully met, and all HM/HW products are managed responsibly in accordance with the CHRIMP directives. Your comments and suggestions are welcomed as we work together to make the program a success.
4. My CHRIMP point of contact is Tom Addy, who can be reached at (850) 452-9929, e-mail: tom.addy@navy.mil.
